The academic grade for a student in a subject area shall not be lowered because the student has created discipline problems. However, this policy shall not prohibit school-based decision-making (SBDM) councils or principals from setting forth a policy against cheating that results in a student receiving a consequence of no credit or lowered credit for a violation of that SBDM policy. Pursuant to Board Policy 1070, all SBDM council policy must be reviewed by OCBE legal counsel for compliance with the law and potential conflict with Board policy.
