Technology Note: EOMS is proud to offer many opportunities for students to engage with technology. We work very hard to make sure that those students who do not have access to their own device, have access to equipment provided by the school. If you are considering an individual device, Chromebooks are the best affordable option when considering technology for educational purposes. (Any web based laptop/device can work.) We do not recommend a smart phone being your child's device in the classroom. Larger devices or tablets are preferable as they are more effective and they allow students to read, write and manipulate on a larger screen.

7th grade Supply List 2021-2022

Individual supplies:
